

Dear Host family,

My name is Victoire, I'm fourteen years old. I am a smiling, happy and kind girl. I live in Montpellier in the south of France in an appartement with my parents, Jerome and Frederique, and my sister Clemence. My sister is sixteen years old and I get along very well with her. She is currently in the United States for one year in a host family in Pennsylvania. I miss her but I am so happy for her. My cat Poupi is almost three years old and he is very nice and playful. I love animals.

I live in a magnificent city, very sunny, in a very beautiful and old city center. It's very lively and very close to the sea. I really like Montpellier. I am in high school named Nevers in 10<sup>th</sup> Grade. I have a lot of friends with whom I have become very close. We study all subjects and the ones I prefer are mathematics and biology. I would like to be an orthodontist later. My best friend Juliette is not in my school, but I often see her outside.

I am very sporty; I practice swimming and above all a lot of dance. When I was in middle school, I was in a sports study dance class but I had to stop when I moved to high school. I still dance a lot but less than before. I also have a lot of friends who dancing. 🕺👯

I also really like spending time with all my family and taking care of my cousins, Leonore and Daphne.

I would really like to go to the United States to learn to speak English better and have a great experience. I would really like to immerse myself and to learn about daily life for American families. I hope to share my life with you!

Thank you very much for your attention to my letter.

*Victoire*
