

Presentation letter – Juan Antonio García de la Torre

Dear host family,

Hi, my name is Juan and I'm a 17-year-old Spanish student. I live in Valladolid, a city in the region of Castille and Leon.

My father's name is Antonio and my mother's name is Inmaculada, I also have a sister named Sara that is currently studying a veterinary degree. I like to travel and spend time with my family as well. We also own two dogs, Laika, a 14-year-old white labrador retriever. And Kan, a two-and-a-half-year-old half-blood border Collie. We have adopted both dogs, and Laika was rescued from the streets when she was two.

Right now, I'm studying second of bachillerato, that is the grade before university, I like to do sport and I play basketball at my high school's team. I spend a lot of time hanging out with my friends and listening to music. Furthermore, I assist to an association whose aim is to give food to people in need. I usually contribute by handing food to people at a meeting point.

California is a state that appeals to me, especially the Los Angeles area because of the weather and the huge variety of cultures that can be found there. That's why I selected this place to practice my English and learn about Californian culture. I also think that this area contains some of the most interesting and beautiful places of the United States, such as Hollywood.

I appreciate your generous hospitality and would be so glad if accepted as your guest, In addition, I would surely accept the house rules.

Greetings,

Juan
